

"I had the pleasure working with Olga and Nikolay on TRIZ. TRIZ is a wonderful tool. I cannot think of innovation without using TRIZ. The way Olga and Nikolay introduce, teach and implement TRIZ is unique. I have been engaged and committed to the various aspects. Without Olga and Nikolay I would not have been thinking in the same innovative way as I do know. I would recommend everybody in the industry to learn from Olga and Nikolay and use, implement and broadcast the TRIZ culture."
